Fitting Instructions

- Maintain a clearance of 12.7-13 mm on each side between the cabinet and drawer.
- Press the release latch to detach the inner slide.
- Position the outer slide inside the cabinet, accessing the mounting holes through the intermediate slide slots.
- Ensure both slides are properly aligned and parallel, then securely tighten all screws.
- Fasten the inner slide to the outer sides of the drawer.
- Insert the drawer into the intermediate slides and push until the latch automatically engages and locks into place.
