05031	SS	350
05032	SS	400
05033	SS	450
05034	SS	500
05035	SS	550

Fitting Instructions

- Ensure a clearance of 12.7–13 mm on both sides between the cabinet and drawer.
- Press the release latch to separate and remove the inner slide.
- Secure the outer slide inside the cabinet using the mounting holes accessible through the intermediate slide slots.
- Align both slides parallel to each other and firmly tighten all fixing screws.
- Mount the inner slide onto the exterior sides of the drawer.
- Slide the drawer into the intermediate slides until the latch automatically engages and locks securely.
